Things To Know

The Concept - Remember the thrill when you found that unbelievably smooth piece of Seaglass on the beach? We are proud to offer a beautiful and unique selection of Seaglass Jewelry created in our studio from art glass, antique and recycled glassware.

The Artists - Carol and Mark Hall are celebrating 39 years as partners in their award winning studio, White Light Productions. They began making jewelry from ocean-tumbled glass collected on the beach in the Bahamas and recycled glass. As their work gained popularity and the glass supply dwindled, they started producing Seaglass in their studio. Carol and Mark bring vastly different artistic backgrounds and strong opinions, sparking tremendous creativity. Carol has many bizarre ideas and a fine arts degree. She started painting on silk and then branched out into jewelry. Mark has years of experience giving Carol practical input (childhood sweethearts). His design background is in theatre and television. They are proud of giving their daughter, Rowan, a strong business and artistic education. She can be seen throughout this year's catalog.

The Creations - Our jewelry line boasts a rainbow of colors, carefully blended in chromatic palettes, utilizing Carol's fine arts degree, as well as her childhood obsession to have all of her Crayolas in the correct order. The process of tumbling broken shards into Seaglass, smooths the sharp edges, creating soft, touchable gems. Your clients will have a hard time putting this work down. They will also find it takes on a beautiful luster when worn. Attention to detail is evident in subtle intricacies and gradation of color.

Seaglass sells year round! - We are sometimes surprised when a store owner views us as a seasonal account. We have to ask, "Is it a great product – colorful, eco-conscious and unique with an attractive price point?" The answer is always yes. "Wouldn't such an item make an exceptional gift?" Certainly. People who are attracted to Seaglass love it, in all its colors and shapes - and they never own just one piece! For them, receiving a gift of Seaglass for any holiday shows aptness of thought.

White Light Productions Seaglass Jewelry is the best choice because:

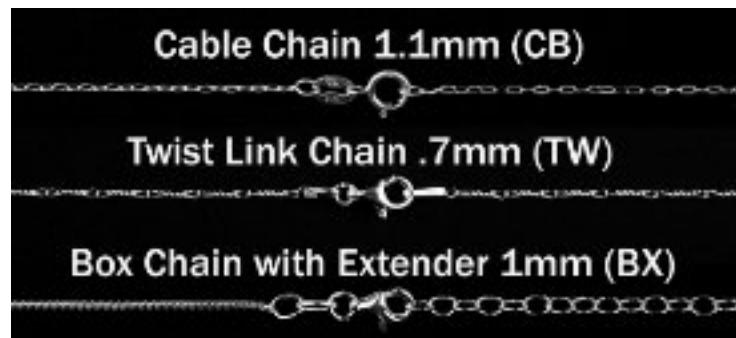

- Handmade in the USA.
- Unsurpassed quality.
- Our Sterling is Harmony Metal - Responsibly sourced silver that is recycled, not freshly mined.
- Fast order turn-around.
- Exemplary customer service. You can always talk to Carol.
- Proven sales history.
- Rare glass colors - We manufacture our own.
- New styles in trending color combinations.
- Green studio practices.
- Creating Seaglass designs since 1987.

How to Order - As you look through our catalog, keep in mind some guidelines that will make ordering simpler. Most of our clients sell earrings 2-1 over necklaces or bracelets.

First, choose your favorite palettes from the back cover. These are the major color combinations we will build your order around. A varied display offers your clients the widest range of color choices. Do tell us if there are colors your clients prefer or that are overstocked. Remember, your favorite color may not be your clients!

Second, select your styles, keeping in mind our best sellers. We will match colors when you order sets.

Third, choose the chain for your pendants. All pendants are priced to ship on 16" Twist chains. Alternative chains and longer lengths are an upgrade (18"+ 20").

Terms - First orders are shipped prepaid, on a credit card or Paypal. We have a \$300.00 minimum for 1st orders. Subsequent orders may be shipped Net-30 with approved credit. For Net-30 accounts, we must receive your check in full, within 30 days of the ship date. Credit cards charged after shipping will be assessed a 3% surcharge. Any invoices that remain unpaid after 30 days are subject monthly to an 18% APR finance charge. There is a \$25.00 charge for returned checks.

Exchanges - We will exchange any jewelry from your order if we are in receipt of it within 30 days from the original ship date. All returns need an RMA (Returned Merchandise Authorization). The work must be free of tags and in perfect, saleable condition, or a 15% restock fee will be applied. All returns must be boxed. Padded mailers do not provide enough protection.

It's Late - Surprisingly, we still have a problem with a number of orders that clients email to us, but we never received. We always confirm orders. If you don't hear from us, chances are we did not receive your order. Please check in with us right away - Don't wait until the order is late!

Shipping - We usually ship all orders in 2 weeks. Don't hesitate to ask about rush orders. We will do our best to accommodate your time frame. All orders will be shipped UPS Ground, unless USPS is requested on the PO. Your only invoice will be included in the box, unless otherwise stated on each PO. All invoice totals are for Merchandise + All Shipping & Insurance Charges. If you need invoices sent to a billing address or email, please make that request when you place your order.

Problem Solved - Afraid of getting your feet wet? Give us your budget and we will put together a perfect order for approval. To refresh your display, simply snap a picture and email it to carol@seaglass.us, then we will put together an order for approval.

Prices - Prices listed are valid on 1/1/2026 and are subject to change. Prices are listed on separate order form that can be downloaded. Call for a current link.

Breeze (J)

Let us pick your colors - We are the Artists - It's what we do!

These colors are approximations **ONLY!** Glass is a translucent material full of light and color, a printed color sample can never be as luminous. Additionally, glass comes in dye lots with a large variation. Some glass is mouth blown and is "seedy". "Seedy" glass contains tiny air bubbles trapped during the manufacturing process and is not a flaw. It's important to remember this is *Broken Glass Jewelry*. Natural variety adds to the overall beauty.

NOTE - Alexandrite & Mist are glasses that change color. In sunlight and some fluorescent light, Alexandrite looks similar to Cornflower. Mist appears as a light lavender. Under incandescent light they appear as shown.

Our Colors for Singles

Blush	Raspberry	Magenta	Red	Plum	Alexandrite	
Midnight	Cobalt	Cornflower	Sky	Aqua	Turquoise	Capri
Mist	Arctic	Ocean	Teal	Seafoam	Lime	Kiwi

Six Color Palettes

Three Color Palettes

Five Color Palettes drop the color marked with “*”

Blossom (A)	Blush	Alexandrite	Sky	Aqua	Ocean*	Seafoam		Blush	Sky	Ocean
Blues (B)	Midnight	Cobalt	Cornflower	Sky*	Aqua	Turquoise		Cornflower	Aqua	Turquoise
Beach (C)	Alexandrite	Cornflower	Turquoise	Capri	Seafoam*	Lime		Alexandrite	Turquoise	Lime
Royal (D)	Red*	Plum	Alexandrite	Midnight	Turquoise	Kiwi		Alexandrite	Midnight	Turquoise
Jade (E)	Arctic*	Ocean	Teal	Seafoam	Lime	Kiwi		Ocean	Teal	Seafoam
